Dear FCC,

My name is David Lincoln from Laguna beach, CA and I am a extremely satisfied multiple account subscriber with XM Satellite Radio. I rely highly on the many listening choices they provide as a paid subscriber. Their traffic and weather channel features are crucial to my day to day commuting in southern California. I oppose any bill and legislation in particular Bill HR 4026 that is before the House of Representatives.

As I become more aware of the bill and the event the bill is passed and put into law. I can assure you FCC, I will do diligence to avoid with vengeance, voting for any politician who shares in responsibility for passing this bill?including the president if it ends up on his desk and has any thing to do with bill HR 4026.

Thank You,
David Lincoln
Laguna Beach, CA
